NEW X SERIES SIGNATURE

BACKED BY GLOBAL AUTOMOTIVE TECHNOLOGY

GLOBAL INNOVATION – ENGINEERED FOR AUSSIE ADVENTURE

GLOBAL ENGINEERING, LOCAL STRENGTH

The Signature is a new standard in Australian off-road caravans. Developed in partnership with the same global innovators who build world-leading automotive technologies, this caravan combines precision engineering with rugged durability. Fully road tested in a tailor made off-road testing facility and track.
Built on a heavy-duty chassis with a full composite body, it is designed to go further, last longer, and protect against the toughest conditions Australia can throw at it.

SMART COMFORT THROUGH ADVANCED TECHNOLOGY

Step inside the Signature and experience comfort powered by global technology. Every detail has been designed with advanced engineering and world-class innovation - delivering reliability, efficiency, and ease of use. From a queen-size island bed to a full ensuite, from a high-performance kitchen to a cafe lounge leather seating area, luxury is built into every inch. Backed by a 600Ah lithium battery, 600W solar minimum, and an intelligent inverter/charger system, you'll stay powered, connected, and comfortable - wherever the journey takes you.
